

For three decades, Desert Mountain Club has been providing members with one of the greatest year-round golf and lifestyle experiences in the world. This private, member-owned club, tucked into 8,000 incredible acres of lush Sonoran desert in north Scottsdale, Arizona, is the home of the world's largest collection of private, Jack Nicklaus Championship Signature Golf Courses.

The Desert Mountain Master Plan was conceptualized by the Frank Lloyd Wright-founded Taliesin Associated Architects and designed to discreetly harmonize with the magnificent land on which it is situated. It was a bold decision but today, Desert Mountain is considered an unsurpassed masterpiece in the realm of private, residential golf and lifestyle communities.

Through dedicated management, insightful planning and deep respect for the land, Desert Mountain remains a leading choice for a new generation of members searching for a private club that defines the ultimate golf and recreational lifestyle experience.

"Desert Mountain has been one of the highlights of my career as a golf course designer. I believe it will always be recognized as one of the greatest golf clubs in the world."
